To determine the distance from the manufacturing facility to the job site, use the suggested Google maps (<https://www.google.com/maps/>) straight-line distance measurement calculator:

Instructions when using Google Maps on a computer web browser (recommended):

- o Search the manufacturing facility address.
- o Right click the red pin and select “Measure distance” from the pop-up menu.
- o Search the job site address, left click on the new red pin.
- o Distance found in white box on bottom of screen (in miles and kilometers).

Instructions when using Google Maps app for Android and iOS:

- o Search the manufacturing facility address.
- o Tap the address or name of the location that is shown at the bottom of the screen and scroll down to select “Measure distance.”
- o Use your finger to slide the map and black targeting circle to the job site location, so the circle is over the site location (zoom-out/in as required).
- o The direct mileage (or kilometers) total is shown at the bottom of the screen.
