

**The Professional's Choice For
Drywall Finishing Products**

Hamilton Barrel Program

**Hamilton now offers products
in a 30-gallon barrel!**

MADE IN THE USA

What is it?

Hamilton's most popular joint compound formulas are now available in a 30 gallon barrel! New recyclable packaging designed to save you time and money.

Why do you need it?

- Faster production times
- Reduces waste on job sites
- Recyclable packaging (LEED – MR Credit 2.1)
- Less mixing, less labor intensive

How does it work?

Increases your return on investment and reduces waste. Barrels are issued using a deposit program. Barrels are accounted for in three parts: Barrels, Lids and Rings. Recyclable packaging allows you to return and refill the barrel.

Saves Time! Hamilton has developed specialized pump extensions to speed up the extraction of material on the job site.

What products are available?

<i>Item#</i>	<i>Description</i>	<i>Unit</i>	<i>Units/Plt</i>
18047	Lt Wt Red Dot All Purpose	30 Gal	4
